Make plans for adventure!

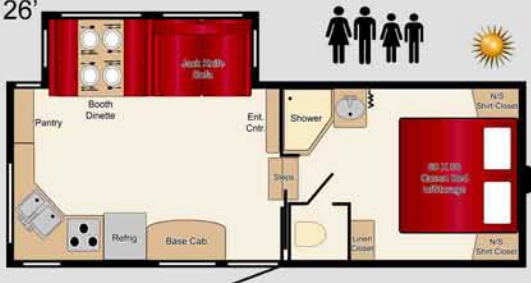

Light in weight, tons of benefits. Choose one of our three floor plans. The fifth wheel offers a lot of advantages that other RV's do not. Fifth wheels are the most spacious RV's available and have two-levels. A perfect mix of function and livability. You have a separate vehicle so all you have to do is unhitch and you are off in your truck for shopping or sightseeing excursions. Lightweight fifth wheels give the option of a lighter duty truck which optimizes your fuel efficiency. Our fifth wheel manufacturer has the only fifth wheels on the market with an 88 degree turning radius making navigation even easier. Our fifth wheels are delightfully easy to handle.
